Capability Statement

SDVOSB · MINORITY-OWNED SMALL BUSINESS

COMPANY OVERVIEW

Tepnology is a Service-Disabled Veteran-Owned, minority-owned small business delivering secure, modern software for the VA, DoD, and federal civilian agencies.

Founded by Patrick Tep, a service-disabled veteran and software engineer, Tepnology pairs a deep understanding of the mission with senior engineering talent, delivering in short, transparent increments with security and accessibility built in from day one.

CORE COMPETENCIES

Custom Software Engineering
- Web and mobile application development
- API design and system integration
- Agile / Scrum delivery and product management
- Automated testing and quality engineering

Legacy Modernization
- Application and portfolio assessment
- Incremental strangler-pattern migrations
- Mainframe and monolith decomposition
- Data migration and validation

Cloud & DevSecOps
- Cloud migration and architecture (AWS, Azure, GCP)
- Infrastructure as code (Terraform, CloudFormation)
- CI/CD pipelines with integrated security scanning
- Containers and Kubernetes platform engineering

Cybersecurity & Compliance
- Risk Management Framework (RMF) and ATO support
- NIST SP 800-53 control implementation
- Zero Trust architecture
- Vulnerability management and remediation

Data Engineering & AI
- Data pipelines and ETL / ELT
- Data warehousing and lakehouse architecture
- Dashboards and decision-support analytics
- Machine learning and generative AI solutions

IT Strategy & Consulting
- Digital transformation roadmaps
- Technical requirements and acquisition support
- Enterprise architecture
- Independent verification and validation (IV&V)

DIFFERENTIATORS

Veteran-led
Founded and led by a service-disabled veteran who understands the people and missions our software supports.

Engineering-first
Our CEO is a software engineer. Technical decisions are made by people who have built and shipped production systems.

Secure by design
Security, accessibility, and compliance are planned into the architecture from the first sprint, not bolted on at the end.

Senior, accountable teams
Small teams of experienced engineers with direct access to company leadership on every engagement.
